

Basic Function & Rule Guide

Mobitech Enterprise Resource Planning (ERP) System Rules

1. Pricing & Landed Cost Rules

Rule 1.1: Stock + Fee Cost per Unit

The unit cost of a phone includes both the auction winning bid and its pro-rated auction/other fees:

$$\text{Stock + Fee Cost} = \text{Winning Bid} + (\text{Auction Fee} + \text{Other Fees}) / \text{Quantity}$$

Rule 1.2: Landed Cost per Unit

The final landed cost per unit includes product purchase fees and pro-rated shipping/logistics costs:

$$\text{Total Cost/Unit} = \text{Stock} + \text{Fee Cost} + \text{Shipping Cost/Unit}$$

2. Logistics & Shipping Costs

Rule 2.1: Pro-rated Shipping Cost

Shipping cost is allocated equally to all units imported in a given shipment:

$$\text{Shipping Cost/Unit} = \text{Total Logistics Cost} / \text{Total Units in Shipment}$$

Rule 2.2: Airway Bill & Transit Tracking

Each shipment tracks airway bills and dates for pickup, Miami arrival, transit, and Dubai w

3. Invoicing & Profit & Loss Accounting Rules

Rule 3.1: Sales Invoicing & Remaining Stock

When a sales invoice is created, remaining deal quantities decrease. If a deal hits 0 remaining, the deal status becomes Fully Sold and final profits are computed.

Rule 3.2: Cost of Goods Sold (COGS)

COGS represents the pro-rated total cost of sold items (Product Cost + Pro-rated Shipping Cost).

$$\text{COGS} = \text{Sold Qty} * (\text{Base Unit Cost} + \text{Shipping Cost/Unit})$$

Rule 3.3: Double-Counting Prevention for Shipping

Shipping costs of sold items are expensed in COGS. To prevent double counting on the Profit & Loss statement, these sold shipping costs are deducted from the raw "Freight & Logistics" operating expense.

4. Partner Equity & Treasury Rules

Rule 4.1: Profit Sharing Ratios

Profit distributions are automated based on each partner's current cash deposit contribution to the Cash Pool.

$$\text{Partner share \%} = (\text{Partner Cash Contribution}) / (\text{Total Cash Pool Capital})$$

Rule 4.2: Funding Sources

Deals can be funded using AMEX credit cards (2% cashback eligible), the Cash Pool, or sales revenue.
